GREAT IMPROVEMENT IN DENTIS-The attention of the public is called to a great

The attention of the public is called to a great discovery in Dentistry.

THE GREATEST ADVANCE STEP EVER MADE IN THE ART.

The main difficulty in wearing artificial teeth is, they do not hold in their place firmly enough, and add to this the annoyance of food getting under the plate while cating. I have discovered a method of so constructing the plate on which the teeth are set that they will not start or drop while eating or speaking, neither will or drop while eating or speaking, neither will any particles of food get under the plate, no matter what the condition of the mouth is, which is not true of any method hithertoused. I have secured Letters Patent for the United

Thave secured Letters Patent for the United States, England and France.

The improvement is not in material, but in the construction, whichs ceures the atmospheric pressure on the entire plate.

I have sold the exclusive of said improvement to Dr. L. Gilman, to wit, the Counties of Franklin, Washington, Chittenden, Lamoulle and Grand Isle. Those wishing to avail themselves of such improvement, will call on

PATENT MANUAL SUB-BASE

THE FIRST PREMIUM Was awarded to this instrument at the New York State Fair and the Fair of the New England States, Vermont State Fair, Missouri State Fair, and Iowa State Fair, over all other instruments, including Mason & Hamlin's Cabinet Organs, Smith's American Organs, and Taylor & Farley's.

It is very important that purchasers bear in mind that the original and genuine Cottage Organ is made by the House of J. ESTEY & Co., only.

The chief points of superiority are patented by them, and of course are found on the instruments of no other maker.

The undersigned has made arrangements to furnish Pianos from any of the principal New York and Boston makers, on the most reasonable terms. Satisfaction guaranteed in all cases. Section 2.—The Board of Education at hereby authorized, and it is made their duty, o or before July 1, 1867, and on or before said dat every fifth year thereafter, to select a list of such grammars, geographies, arithmetics, his tories of this State and the United States, phi osophies, algebras, readers and spellers, no exceeding one book of a kind in each branch, a they shall deem best suited for instruction an use in the district schools in this State, in each of said branches; and shall cause the list is selected to be published in all the newspaper published in the State, during the month of January next following the making of such selection; and also to be inserted in each schoeregister issued after one year from the making of such selection; which list, so selected, shabe and remain authoritative and binding upof the Board of Education, superintendents and teachers, and during five years from and after November 1, 1868, and each five years thereater; and superintendents and teachers share recommend for use in the district schools, a new books shall become necessary for instruction in the branches named, no other than the books included in said list so selected and pullished.

The following is an extract from the Report

The following is an extract from the Report of the Board of Education, for the year 186

page 8:

Mitchell's First Lessons, Primary, and Intermediate Geographies were adopted, for thes reasons, in brief; the simplicity and clearnes of the text, the gradual and constant advance ment from the primary truths to the higher departments of geographical knowledge, the corciseness and completeness of the definition the elegance and accuracy of the maps, the attractiveness of the pictorial illustrations, and the uniform method of treating topics that as similar to each other. Since the adoption of these books, the publishers have taken measures to prepare a special edition of the Intermediate Geography for use in the schools of Vermont. This edition will contain a new quart map of the State, engraved on copperplate; an four pages of letter-press and questions, relaing to the geography of Vermont, to be prepared by Rev. Pliny H. White, It is believed that this feature, while it is not to increase the coof the books, will materially increase its valuand the interest with which it will be studied McNally's Physical teography, accompanied be Monteith's Lessons in Astronomy, was adopted to be used in those departments of the stud which are indicated by their titles. Guyot Common School Geography was adopted as Physical Geography \*f a grade different from McNally's.
